Subject: Data re surgery for kidney cancer

Q I wanted to request some data on nephrectomies (removal of all/part of a kidney):

I would like to request the medical records/data from patients who underwent surgery for kidney cancer. I would like the data to include: patient's demographic data (age, gender, ethnicity), operative details (length of surgery, operative blood loss, time to liquid diet, time to normal diet, stay in ICU, total hospital stay) and post operative morbidity and mortality (incision infection, major medical complications, death in hospital).

A [Information not held - Liverpool Heart and Chest Hospital is a specialist cardiothoracic centre and does not treat kidney cancer.](#)
