

**Reference Number:** FOI/LHCH/2016054

**From:** Private Individual

**Date:** 22 February 2016

**Subject:** Agency shifts offered and filled for Allied Health Professionals (AHP) and Health Science Services (HSS) roles in last 12-months

**Q** My aim is to look at Role demand by skill and location, so for the same list of roles could you please supply me with the following information:

- Number of shifts offered to Agencies for each role, monthly for the last 12 months.
- Number of shifts filled by Agency for each role, monthly for the last 12 months.

**A** This information is not collated as part of the Trusts management information. In order to identify this each separate budget holder in the Trust would be required to individually review 12 months of invoices and timesheets for agency staff used, extract the totals hours worked and match this against the financial value. It is anticipated this work would take in excess of 18 hours in total and therefore is exempt under s12.
