

Reference Number: FOI/LHCH/2016085
From: Private Individual
Date: 30 March 2016
Subject: Patient attendances/occupancy

Please find below FOI request for information pertaining to NHS patient attendances / occupancy over a 3 year period split by specialty and day of the week.

I would be grateful if you could provide me with the following information for the period between 1 January 2013 to 31 December 2015 for activity taking place within the main hospital setting, excluding community services, home visits and telephone consultations.

For each of the below I would like to know where there is an expectation for consultation / treatment plan to be documented electronically.

Q1 Number of clinics split by;

- day of the week they take place
- whether they are consultant led, nurse led or AHP led or other
- specialty of the clinic

Q2 Number of outpatient attendances split by;

- day of the week they attended
- whether the attendance was for a consultant led, nurse led, AHP led or other clinic
- specialty of the clinic

Q3 Number of ward attendances split by;

- day of the week they attended
- specialty of the attendance
- whether they attended in core hours or outside of core hours*

Q4 Number of A&E / walk in attendances split by;

- day of the week they attended
- whether or not they then went on to be admitted
- whether they attended in core hours or outside of core hours*

A4 Information not held – Liverpool Heart and Chest is a specialist cardiothoracic centre and, as such, does not have an A&E department

Q5 Number of inpatients in beds split by;

- number of inpatients each day of the week**
- type of ward the inpatients were on i.e. general ward, ITU, CCU, AMU etc
- specialty of the diagnosis / procedure
- whether the patient was admitted as elective, urgent or emergency
- whether the patient underwent a procedure on that particular day

**please state what you believe your core hours to be*

***the number of patients in a bed on any one day rather than length of stay*

A1, A2, A3 & A5 In response to these questions, we would advise that although the data is collected within our IT systems, the information held is not processed in the way specified for the questions.

We estimated that in order to generate the information needed to respond it would take the Trust in excess of 18 hours and the appropriate fees limit set by the Freedom of Information Act 2000.

Under Section 12 of the Act therefore the Trust is exempt from disclosing this information; however we have recently produced the attached information as part of contract planning and feel that this could be of use and are happy to discuss further.

If you would like to discuss your request outside of the FOI Act with Tony Grayson (Head of Information Services) then he can be contacted at tony.grayson@lhch.nhs.uk or on 0151 600 1791.
