Subject: Electronic Patient Record (EPR)

Q1 Does the Trust have an Electronic Patient Record (EPR)?

If Yes:

Who is the principle software provider?

Are clinicians able to access patient records at the point of care (eg: at the bedside by cart, mounted PC etc) across all applicable locations?

If no:

Does the trust have a timetable to implement EPR?

A1 Yes.
Provider: AllScripts.
Point of care: yes.

Q2 Has the trust fully implemented Electronic Prescribing Medicines Administration (ePMA)?
If no, does the trust have an anticipated timescale for full implementation?

A2 Yes.

Q3 Has the trust implemented PSAG (Patient Status at a glance/ Electronic white boarding for bed management)?

If Yes, fully or partially?

If partially or No, Does the trust have an anticipated timescale for full implementation?

A3 Yes.

The Trust has: -

- A Bed Management system, that demonstrates bed allocation and availability
- B As part of the EPR system we utilise " Facility Boards" that display patient data and status at a glance
