**From:** Private Individual  
**Date:** 30 January 2019  
**Subject:** Health records and clinical documents

Q1 How do your clinicians compile patient records (e.g. using pen and paper, word processing, speech recognition or another method)?

A1 The majority of clinician documentation is captured digitally in the Trust's Electronic Patient Record system. Clinicians also dictate letters.

Q2 Has your Trust deployed technology that will enable doctors to more quickly and accurately complete and/or process clinical documents? If so, what technology has been deployed and when was it deployed?

A2 The Trust's Electronic Patient Record system is Allscripts Sunrise Clinical Manager it was deployed on 23.6.2013

Q3 Is your Trust using artificial intelligence to improve patient services? If not, do you plan to invest in these services in the next 12 months?

A3 Not currently and no plans.

The Trust's EPR system contains decision support.
