From: Private Individual
Date: 05 June 2020
Subject: Coronavirus Test Figures

Q1 Please can you tell me how many coronavirus tests the trust has used on patients between 1st March 2020 and today's date (4th June 2020).

A1 809 patient tests between 17th March and 4th June. This includes symptomatic and pre-screen testing.

Q2 Please can you tell me both the number of patients that have been tested, and the number of tests carried out (i.e. if a patient has been tested more than once).

A2 776 patients have been tested and 809 tests have been carried out (symptomatic and pre-screening).

Q3 In each case, please can you tell me how long it took for the trust to receive the patients' test result. If you do not have data for every patient please can you provide me with the average length of time it has taken to get test results for all patients.

A3 The average length of time was 24-48 hours. Urgent cases 2-6 hours.
