

Board of Directors (Public)

Item: 3.3

Subject: Systems Update
Date of meeting: Tuesday 31st May 2022
Prepared by: Jane Tomkinson, Chief Executive Officer
Presented by: Jane Tomkinson, Chief Executive Officer
Purpose of Report: To note

BAF Ref	Impact on BAF
BAF 10	Assurance regarding systems working and collaboration.

1. Executive Summary

This report provides a briefing on systems wide activity that impacts on the Trusts role and approach within the new Integrated Care Systems.

2. Background

In March 2022 the government published a new policy paper '**Build back better: Our plan for Health and Social Care**'. This publication supports the Health and Care Act 2022.

Build back better' outlines the next steps in NHS and Social Care integration and describes how systems will play their part in recovering from the covid pandemic.

In summary the paper highlights:

- Measures to address the elective care backlog
- Putting the NHS on sustainable footing
- Focusing on prevention
- Plans for adult social care
- Integration of health and social care

With the Health and Care Act 2022 the promise of integrated care systems has become a reality. The dissolution of Clinical Commissioning Groups (CCGs) and the establishment of Integrated Care Systems and Integrated Care Boards will come to fruition from 1st July 2022

3. Provider Collaborations

Whilst providers are not subject to such significant change as commissioners there is a clear expectation that the provision of services will become closer aligned. All acute and mental

health trusts are required to be a member of at least one provider collaborative

Within Cheshire and Merseyside this work is being taken through the Cheshire and Merseyside Acute and Specialised Trust group (CMASST). The group is exploring options for provider collaborations, principles of engagement, learning and shared governance.

Referencing examples from Greater Manchester and South Yorkshire CMASST will focus on how collaborations can support delivery and consistency of approach across the system.

Recommendations, which would be subject to respective Provider Boards for approval, will be brought forward in due course

4. Place Based Care

The development of Place as a local delivery mechanism is beginning to mature with local partnership governance emerging. Whilst this differs for each Place there is commonality in that NHS and Local Authorities are developing local governance that facilitates closer working.

Within Liverpool the 'One Liverpool Partnership Board' is well developed with three subgroups that capture a) People and Community Voices b) Finance, Quality and Performance c) Systems delivery group.

The One Liverpool Partnership Board reports to the Liverpool Health and Well Being Board, Cheshire, and Merseyside Integrated Care Board and the Liverpool City Council/Cabinet.

The One Liverpool Partnership systems delivery group has developed a workplan reflective of local needs including:

- Heathy Children and Families
- Complex Lives
- Long Term Conditions (including Cardiovascular and Respiratory Care)
- Frailty and Dementia
- Disabilities

LHCH plays an active role in the Partnership.

5. Model of Care – Liverpool

Cheshire and Merseyside Integrated Care System have been asked by NHSE/I to commission an independent review of the acute care model within Liverpool with a view to identifying opportunities that will improve clinical hospital-based services in terms of clinical quality, efficiency, and effectiveness.

The terms of reference, scope and scale of the review will recognise that providers serve populations that boarder Liverpool, and for specialized providers, that of a much wider population.

This review will take account of the considerable mutual support offered by providers to each other during covid and how this could become part of business as usual. The review will also reflect on the advancements made in closer working for Cardiology within Liverpool.

The Review will be commissioned by Liverpool CGG on behalf of the ICS (until the Integrated Care Board is established) with day-to-day oversight through the One Liverpool Partnership Board

6. Recommendations

The Board of Directors are asked to note the report.
