Subject:	Data analytics re covid-19

Q1   Is your Trust using data analytics to support in the management of its response to Covid 19?

A1   Yes

Q2   If so, please could you confirm the use cases (i.e. medical resource management, monitoring patients that have tested for the virus and those that have tested positive, tracking the patient journey for those that have tested positive for the virus, ward management for patients that have test positive for the virus, identifying which healthcare workers have been exposed to the virus, etc.)?

A2   Inpatient journey monitoring, ward management, waiting time monitoring, service demand

Q3   If so, please could you confirm which roles in the Trust will have access to your Trust's data analytics results regarding Covid 19 (please confirm for each of the following roles listed): Physician, Nurse, Pharmacist, Management, Accountant/Finance, HR and Recruitment, IT Office, Administrative Assistants, Data analyst/scientist (including roles such as Performance Reporting and Informatics)

A3   The system is online and accessible to all within the Trust
