

Reference Number: FOI2021/224
From: Private Individual
Date: 28 June 2021
Subject: Number of covid deaths without comorbidities from 01/01/2020 to 20/06/2021

Q1 How many people have died on your records for your hospital from 1/1/20 to 20/6/21 from covid as being the only cause of death, EG- no comorbidities/no other reason/cause of death on death certificate

A1 Eight.

Comorbidities are not a feature that is included in death certification (MCCD). It is only remarked on if it has been a contributed factor to the cause of death. This number reflects solely on that covid-19 was the only factor noted on the death certification and we are unaware of any other comorbidities.

Please note, this data is between April 2020 – June 2021, as we did not record this information between January 2020 – March 2020.
