

Reference Number: FOI2021/229
From: Press/Media
Date: 30 June 2021
Subject: Number of hospital acquired covid-19 cases

- Q1** Please can you tell me how many cases of hospital-acquired Covid-19 the Trust has had since 1st March 2020 to the present day. Please break this down by probable and definite nosocomial infections if this data is available.
- A1** From 01/03/2020 – Present, there have been a total of **82** hospital definite or hospital probable COVID 19 infections.
- Hospital-Onset Probable Healthcare-Associated - First positive specimen date 8-14 days after admission to trust: **49**
 - Hospital-Onset Definite Healthcare-Associated – First positive specimen date 15 or more days after admission to trust: **33**
- Q2** Please also give me the number of deaths from hospital acquired infections (probable and definite cases). If you are able, in each case, please could you state whether you have informed the patient's relative that it was a hospital acquired infection.
- A2** Information not held – we do not record if the patient died of a hospital acquired death and if their relative was told. We state the cause of death, but we don't stipulate if it was hospital acquired.
