Date: 03 October 2022
Subject: Structural maintenance issues

Q1 As of the date of this request, what is the longest amount of time - in days - that one of your outstanding structural maintenance issues has been left unresolved? Structural maintenance issues could include leaks, collapsed ceilings and creaking support beams.
Please could you answer Q1 for the three structural issues which have been left unresolved for the longest amount of time, in descending order.

A1 Information not held - No unresolved/outstanding issues as of date of request.

Q2 Please send all of your trusts' hospital reports - commissioned since 01/01/22 - into the safety of their buildings and the risk posed to patients in the event of structural failure in the hospitals. If there are no reports as of 01/01/22, please send the Trusts' most recent report.

A2 Information held however disclosure exempted under Section 38 Health and Safety. We deem that disclosure would or would be likely to endanger the physical or mental health or safety of individuals, such as Trust staff and patients.
