Security / Cyber Security:

Q1 What SEIM (Security Event and Incident Management) solution is used by your organisation?

A1 Pervade.

Q2 When does your SEIM (Security Event and Incident Management) platform license subscription come up for renewal?

A2 Information exempt under S31 (1) (a) Law enforcement as disclosure would, or would be likely to, prejudice the prevention or detection of crime. This is specific to information relating to servers and operating systems.

We have assessed the public interest in disclosure and believe the only factor for release would be openness and transparency, however the factors against release clearly outweigh this as release of the information would place the Trusts information systems and other related assets at risk of attack from hackers if released in to the public domain. This would have a major impact on the Trusts ability to maintain confidentiality, integrity and availability of systems and information and would severely disrupt services to our patients and would have a substantial impact on the Trusts reputation therefore causing financial loss and would damage the Trusts commercial interests.

Q3 If the SEIM (Security Event and Incident Management) solution was purchased via third party please disclose the contracting party's details?

A3 Athena Cyber Security.

Q4 Do you outsource your security management to a third party (managed security service provider)? If so can you disclose the name of the managed security service provider?

A4 No.

Q5 When does the current service contract from the current managed security service provider end?

A5 Not applicable as per A4 above.

Q6 Can you provide the email address of the individual that is responsible for your IT Security?

A6 Information exempt under Section 21 of the Freedom of Information Act 2000 - 'Information reasonably accessible to the applicant by other means'.
