Note:

- Week 1 commences Tuesday 4th Jan 2022 (the first working day of 2022)
- **Theatre provisional schedule** includes all patients who were listed for the week (i.e. Including those subsequently were moved to a later date / declined etc) – so this is not the total capacity available for operating as the same operating slot may have been occupied by multiple patients before the final patient was confirmed for their operation on a given day.
- **Theatre delivery** is the total operations undertaken in the week
- **Quarterly Monitoring of Cancelled Operations** is the reported cancellations (i.e. non-clinical cancellations on the day of TCI). This doesn't include non-reportable

cancellations (e.g. cancellation for clinical reasons, Covid, patient Did Not Attend etc).

- **All cancellations** is cancellations / re-scheduling of operations that have been listed at any point (e.g. including patients who declined their operation date 2 months before and were rescheduled). This also includes all QMCO cancellations.
