

**Reference Number:** FOI202324/362  
**From:** Press/Media  
**Date:** 08 November 2023  
**Subject:** Respiratory Department Serious Incidents

**Q1** Excluding reports relating to incidents of self-harming behaviour, disruptive/aggressive behaviour and patient abuse, please provide me with the most the five most recent 'serious incident reports' (or 'patient safety incident reports' or 'root cause analysis investigation reports') relating to incidents which have occurred in your **respiratory department**.

**A1** Liverpool Heart and Chest Hospital NHS Foundation Trust do not have a specific respiratory department as we are a specialist cardiothoracic centre. On review of past serious incidents, we do not have any that relate specifically to respiratory patients.
