

Reference Number: FOI202324/515
From: Press/Media
Date: 08 February 2024
Subject: Cases of FGM in the last 10 years and related costs

For each of these 3 questions and the sub-sections, could you provide the data in calendar year and could you split the data by month and year (e.g., January 2014, February 2014).

Q1 How many patients have come into your care s with Female Genital Mutilation (FGM) that was noticed and/or attended to, between January 2014-February 2024 calendar years?

NOTE: Please specify if the data is relating to a physical or mental health concern and please make sure to list the physical and mental health concerns separately.

A1 Zero.

Q2 Between January 2014 to February 2024: how much has the trust spent (or how much has it cost) for the following things relating to FGM:

- a) corrective FGM (whatever actions need to be taken to correct or improve the damage caused by FGM)
- b) surgery
- c) procedures (non-surgical)
- d) appointments for mental health – counselling, therapy, group therapy etc. This includes mental health trusts dealing with any form of secondary treatment for FGM as I appreciate acute trusts would look after primary physical care.

NOTE: Please specify if the data is relating to a physical or mental health concern and please make sure to list the physical and mental health concerns separately.

A2 Zero. Liverpool Heart and Chest Hospital is a specialist adult cardiothoracic centre and does not provide treatment and care for FGM related surgeries.

Q3 How many FGM-related deaths has your trust seen between January 2014- February 2024? Please specify how if FGM was a primary or secondary cause of death.

A3 Zero.
