Subject: Costs associated with changing the terminology for junior doctors to "resident doctors"

- Q1 Total expenditure to date associated with changing the terminology for junior doctors to "resident doctors" within your NHS Trust. This should include, but is not limited to:
- a. Costs associated with updating internal documents, policies, and systems.
 - b. Costs of staff training or communication initiatives related to the change.
 - c. Costs of any external consultancy or support sought for this purpose.

A1 [Information not held - there are no costs associated with this change.](#)

- Q2 An estimate of any further costs that the Trust anticipates incurring in relation to this change in terminology. Please provide a breakdown of these projected costs.

A2 [Information not held – as per A1](#)

- Q3 A brief explanation of the reasons behind these expenditures and how they contribute to the effective implementation of the new terminology.

A3 [Information not held – as per A1](#)
