Subject: Data storage for digitised patient records

Q1 What system is used to store image files (i.e. records which have been scanned and digitised)?

A1 [Hyland Onbase](#)

Q2 The current total amount of data stored in the system. Please provide this in terabytes (TB).

A2 [6TB](#)

Q3 The volume of data added to the system annually for the past two years (2022/23 and 2023/24), with figures in TB.

A3 [2TB](#)

Q4 The hosting environment used for the system (e.g. on-premise, local cloud, or external private cloud).

A4 [On-Premise](#)

Q5 The total amount of data that has been deleted from the system since its initial implementation, also in terabytes.

A5 [Zero](#)
